

Victor Ho
Biographical Sketch
“The Future of Existing Buildings”

Victor Ho is a Building Scientist Intern of Chelsea Group, Ltd., a leading firm in building science consulting. Currently, Mr. Ho supports the Chelsea Group team of engineers by offering his assistance with the current Queen’s Medical Center update project—specifically in the main areas of floor design and field verification of any possible design challenges that may arise.

Mr. Ho is a proud graduate of University of Hawaii at Manoa, Bachelor of Science in the field of Mechanical Engineering.
